SUMMARY

As a final-year Diploma in Informatics student, I possess a solid academic foundation in programming, data analysis, and IT project management. With proficiency in various IT disciplines, including Business Analysis, Quality Assurance, and Information Systems Management, I am well-equipped to contribute to diverse technology-driven projects. My skillset is complemented by excellent problem-solving, communication, and teamwork abilities. Additionally, I have a working knowledge of web technologies, including CSS and HTML. Currently, I am enhancing my skills by pursuing a Project Management Professional (PMP) course on Udemy

SKILLS

<u>Business Skills</u>	<u>Technical Skills</u>	<u>Soft Skills</u>	<u>Quality Assurance and Testing</u>
Business analysis Cost management Enterprise architecture IT project management	Database design and management Data structures and algorithms Programming languages (Java, MS SQL) System analysis and integration	Excellent Communication and teamwork skills Strong Problem-solving and analytical skills Effective time management and organization	Quality assurance Testing principles
